

Visual Effects and Animation

Assignment 2 3D Animation

Topic : Mount Maunganui

Name: Maria Susainathan Dominic Maria Joseph

Student ID: 19480493

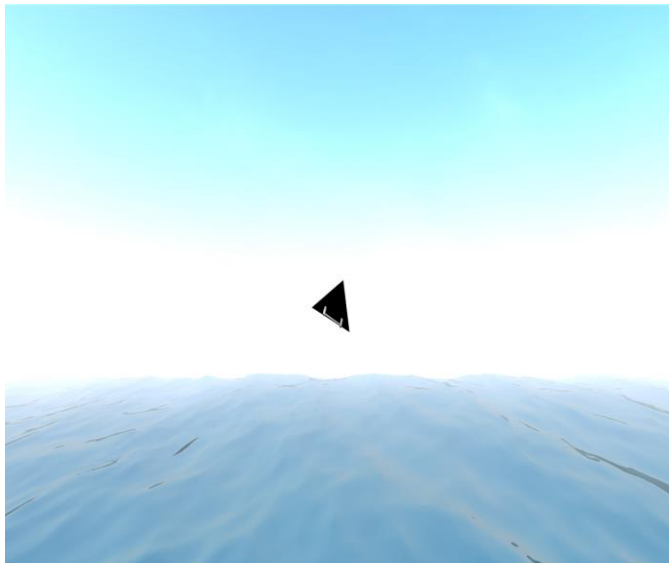

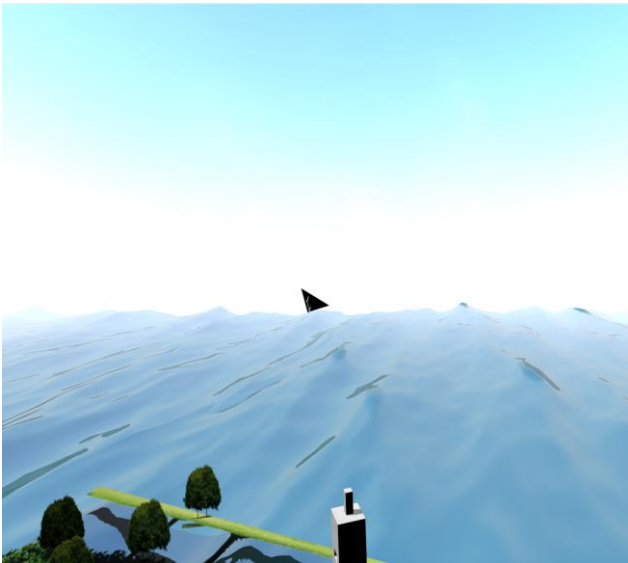

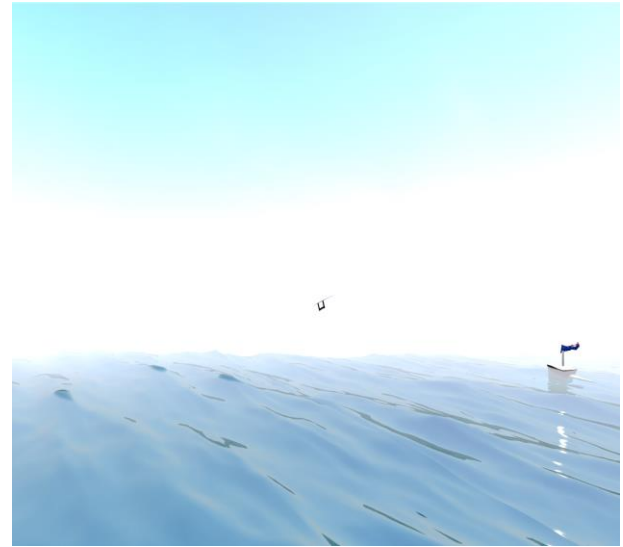

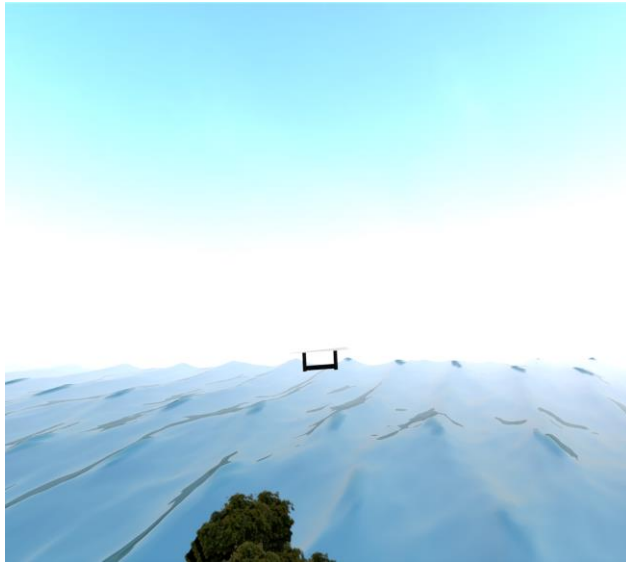

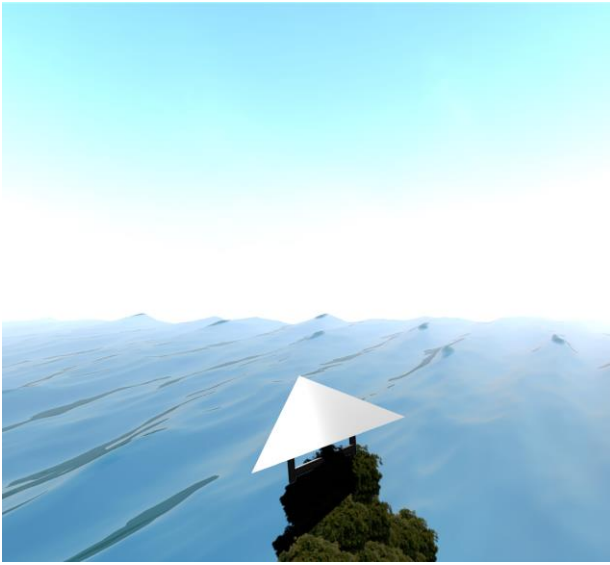

Technology: Blender 2.79

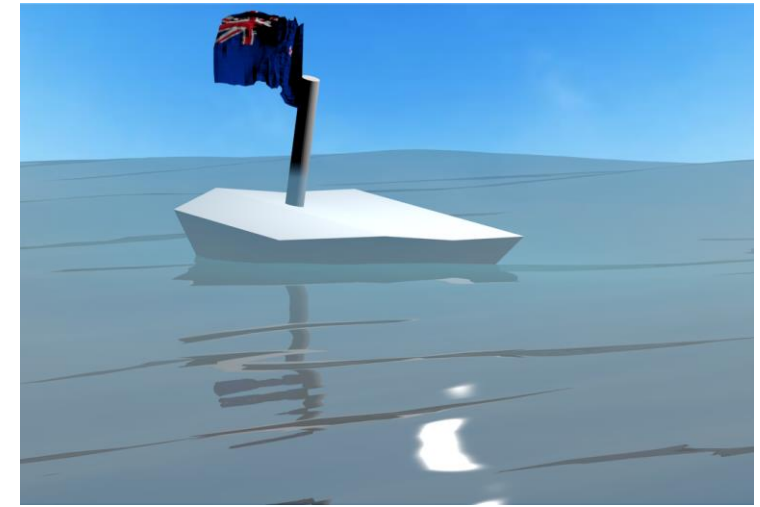

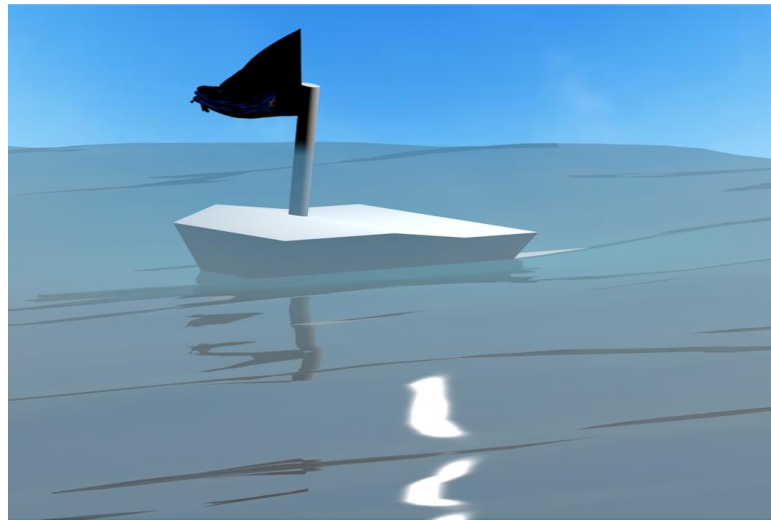

3D models developed and rendered in **Blender 2.79**. Video editing is also done in Blender.

Graphics – All the frames for the animation are converted into PNG. **Video** – MKV format

Designed to play on – VLC Media player or any other video player

The **1st scene** in the video is Paragliding which most often seen in **Mount Maunganui** from the Hill Top. The camera focuses on the object from the far angle.

The **2nd scene** in the video is the boat sailing on the beach with the flag moving. The camera focuses on the object from the near angle.

The **3rd scene** in the video is the presentation of the Mount Maunganui. The camera focuses on the object from a far to a near angle.
